DETAILED ACTION

Allowable Subject Matter

Claims 1, 2 and 7 allowed.

The following is an examiner's statement of reasons for allowance:

A chemical vapor deposition (CVD) apparatus comprising an annular microwave cavity including an outer and an inner cylindrical walls wherein the inner wall having a slit extending in a full circle around the cylindrical axis, and an elongated microwave guide having a longitudinal axis that is substantially perpendicular to the cylindrical axis of the cavity and does not intercept the slit, and wherein the width (W) of the slit is equal or less than one tenth of the vacuum wavelength (λ) of the microwave radiation, that is, $W \leq \lambda$, both measured in a direction parallel to the cylindrical axis.

The relatively narrow slit width enhances the electric field strength in the microwave generated plasma.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Parviz Hassanzadeh whose telephone number is (703)308-2050. The examiner can normally be reached on Tuesday-Friday.
